Connectors	2×Neutrik speakon NL4
Fittings	Top hat fitting
Dimensions(mm)	(W)1626mmx(H)590mmx(D)770mm
Weight	130KG

Technical specifications

Description

DB-221 is a horn loaded subwoofer that incorporates dual 21"/6" VC neodymium woofers that deliver the low end down to 28Hz without compromise. The folded horns enables the enclosure to contain a longer sound path and have been acoustically optimized to achieve high output and low distortion while maintaining clarity and impact. Birch plywood cabinet is equipped with flush handles, steel grille, locating feet, heavy duty wheels and Speakon NL4 connectors.

Feature

Twin 21" horn loaded subwoofer, vented
Stack capability
Very strong and deep frequencies with maximum efficiency, speed and impact
Water-based paint for environmental purpose

Applications

Big live music events
Concert touring
Fixed installations
